

ODUBIYI SUCCESS JOSHUA

FULL STACK DEVELOPER & BRAND DESIGNER

PROFILE

Full stack developer and brand designer with 3+ years of experience turning ambitious ideas into shipped products 40+ projects delivered across web, mobile, and brand identity for organizations and independent clients alike. Proven across the full lifecycle: architecting scalable full-stack systems (React, TypeScript, Supabase, Node.js), building cross-platform mobile apps, and designing brand identities that make products feel premium from first impression to final release. Currently trusted by Innovations Lab and Bathom FountainHead to own full-stack development, and by Building The Researcher (BTR) to lead design. 99% client satisfaction rate across every engagement.
